

# Mainframe Hosting: Supporting IBM Z Series Environments

Baer Consulting LLC (BCL) Managed Cloud Services delivers Platform Hosting and Support for Legacy Application and IBM z Modernization projects.

## Z Mainframe Hosting Services

**Workload  
Management  
as a Service**

**Storage  
Management  
as a Service**

**Mainframe  
Hosting  
as a Service**

**Disaster  
Recovery  
as a Service**

**ISV Software  
Licensing  
as a Service**

### Our Commitment to You for Mainframe Hosting:

Your digital Hosting initiative will still require the maintenance of older, on-premises assets while simultaneously calling for modern application front ends, cloud-native infrastructures, and technologies. BCL Managed Hosting Services will provide **staff augmentation, z/OS systems support, managed production, storage management, single vendor ISV software support** and **disaster recovery**.

BCL also provides the **Mainframe Sunset Services** to **decommission** and **remove all hardware** from your site when re-hosting is complete.

This approach is designed to **help you better align IT services to business priorities** by helping **speed the digital transformation** process while reducing management risk and the overhead expenses of maintaining your own Enterprise Server on-premise.

Contact us today for a no-cost evaluation of your environment
